

better advice for a better life

With a strong local history and a reputation built on trust, WHK looks forward to helping you with better advice for a better life

Within Tasmania we have firms based in the South, North and North-West. We work within our own regions, but share best practice ideas and initiatives to benefit our clients.

We utilise a **small team** approach to ensure we maintain our personal commitment to each and every individual and business, no matter how large or small.

As part of the wider WHK Group we have **access to a network of resources** as well as our own localised specialists to ensure we cater to all our clients' needs. WHK Group is a leading Australasian financial services group, with a network of offices across Australia and New Zealand.

At WHK we understand that **specialised advice** should always start with the most important aspect...*you*. Whilst client needs have changed over time, our level of commitment has not. We believe in providing **comprehensive advice** to our clients.

Our advisers take the time to **understand your needs**, now and into the future, and know the importance of honest and regular communication. This is an essential part of a successful initial and long term relationship.

We are unique in our service offerings from our own internal specialists covering a wide range of professional services: from mainstream accounting to more complex business-related advice, financial planning, self-managed super funds, finance and lending advice or independent audit and assurance services.

At WHK, every aspect of your financial needs is covered and by **working together** we provide specialised advice to help you grow and achieve your dreams over time.

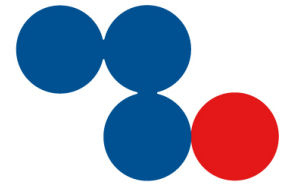

Ensure your future is everything you want it to be, talk with a WHK adviser today and together we can maximise your potential with a financial strategy according to your needs now, and into the future.
